153 physicians
and 63 advanced
practice providers
representing 47
medical specialties

218,295
Patient care
encounters at
our hospital
and clinics

CENTRAL VERMONT MEDICAL CENTER KEY INITIATIVES

- **Responding to COVID-19:** We continue to provide the care that responds to the needs of our community. We have made COVID-19 response systems core to our daily operations and are working to ensure that we have capacity to support an increase in patients seeking care.
- **Workforce development:** We invest in our people and their professional growth. Our workforce development programs help build careers at our hospital and clinics through educational programs in partnership with Community College of Vermont, Vermont Technical College and the Vermont Department of Labor. In June 2021, 13 students graduated from our new Licensed Practical Nurse Program, and another cohort of eight have enrolled already. We hired a dedicated workforce coordinator and are expanding our programs to include tracks for pharmacy techs and registered nurse training.
- **Substance use prevention and treatment:** By pioneering innovations such as rapid access to medication-assisted treatment in our emergency department, and including peer recovery coaches in the care we provide, we have transformed how we are supporting patients with substance use disorder at our facilities and throughout the state. Our Central Vermont Prevention Coalition recently received \$1M over the next three years to build on this important work and study the impacts of the COVID-19 pandemic on substance abuse in our region.
- **Psychiatric inpatient capacity project:** In November, we resumed planning for our adult psychiatric inpatient capacity project, which was paused at the start of the pandemic. The project's goal is to reduce wait times and improve safety for patients and staff by building a state-of-the-art inpatient psychiatry unit that will increase our acute psychiatric beds from 15 to 40. The planning team anticipates that we will submit a certificate of need to the Green Mountain Care Board in April 2022, for a first patient day in the fall of 2025.

Working together, we improve people's lives.

Our goal is to improve the health of people across Vermont and Northern New York by integrating patient care, education and research in a caring environment.

Our locally led, non-profit Network is working to preserve access to care that our patients and families need by focusing on wellness, in addition to disease prevention and treatment, while controlling costs.

OUR INTEGRATED HEALTH SYSTEM

- Academic Medical Center, an alliance of UVM Medical Center, the Robert Larner M.D. College of Medicine at the University of Vermont and the UVM College of Nursing and Health Sciences
- 5 Community Hospital Affiliates
- Network Medical Group
- Home Health & Hospice Agency
- Federally Qualified Health Center Partner

NETWORK BY THE NUMBERS

1M

Serves more than 1 million people

1,500+

Providers, including 1,075 physicians and 450 advanced practice providers representing primary care and 30 medical specialties

14,000+

Employs more than 14,000 people in our region

1,175

1,175 licensed inpatient beds

2.7M

Patient care encounters at our hospitals, clinics and home visits, including 146,439 ER visits
