encounters at our  
hospital and clinics

### CHAMPLAIN VALLEY PHYSICIANS HOSPITAL KEY INITIATIVES

- **Transforming adult psychiatric care:** We are one part of a community-wide effort to care for people with psychiatric needs. People are most successful in managing their mental health and coping with symptoms when there is a coordinated plan involving primary care providers, outpatient-based services and the hospital-based care team. Our new state-of-the-art Adult Psychiatry Unit will support our team to provide exceptional inpatient acute psychiatric care with an emphasis on hope, recovery, quality of life and success beyond the facility's walls. Included in this unit is a dedicated space, the Medical Village, which offers patients the opportunity to connect with community partner agencies that will support their transition to outpatient care.
- **Improving the quality and efficiency of care:** Capitalizing on the implementation of the Epic electronic medical record system, we are taking a huge step toward creating a seamless patient experience for patients across The UVM Health Network. This system is an important tool in our efforts to improve the quality and effectiveness of care by giving providers their patients' most updated medical information.
- **Commitment to building a diverse and dynamic workforce:** We continue to work toward becoming a more diverse, equitable and inclusive (DEI) organization with the completion of a confidential cultural assessment, ongoing educational opportunities and planned training for leaders. Advancing our DEI work is key to fulfilling our mission to best care for our patients and each other.

## Working together, we improve people's lives.

Our goal is to improve the health of people across Vermont and Northern New York by integrating patient care, education and research in a caring environment.

Our locally led, non-profit Network is working to preserve access to care that our patients and families need by focusing on wellness, in addition to disease prevention and treatment, while controlling costs.

### OUR INTEGRATED HEALTH SYSTEM

- Academic Medical Center, an alliance of UVM Medical Center, the Robert Larner M.D. College of Medicine at the University of Vermont and the UVM College of Nursing and Health Sciences
- 5 Community Hospital Affiliates
- Network Medical Group
- Home Health & Hospice Agency
- Federally Qualified Health Center Partner
